

1. Download our Quark template from the Product page for the item you are ordering. Use the template to create a new file, or place your existing document within the template.

Advanced Users Note:

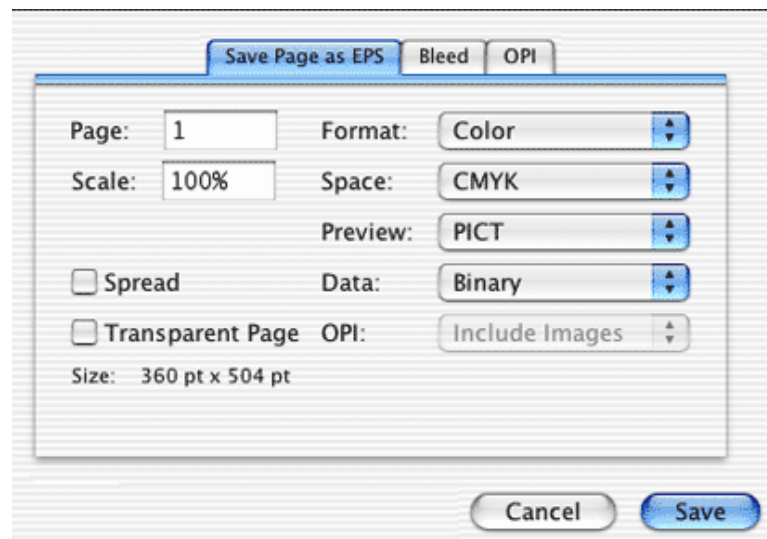

If you are familiar with PDF workflows, you may proceed without a template. However, please scrutinize your artwork in the cropping tool.

2. Carefully follow all the guidelines for All Applications.

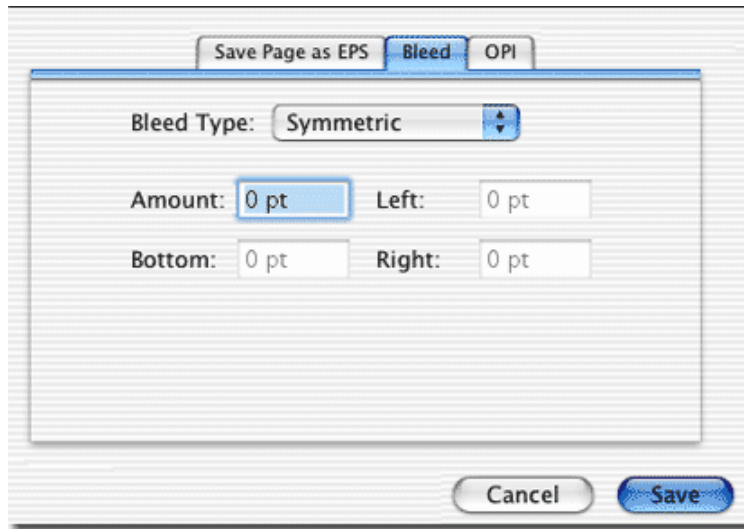

3. Print a laser or inkjet proof for a final internal check, then Save Page as EPS:

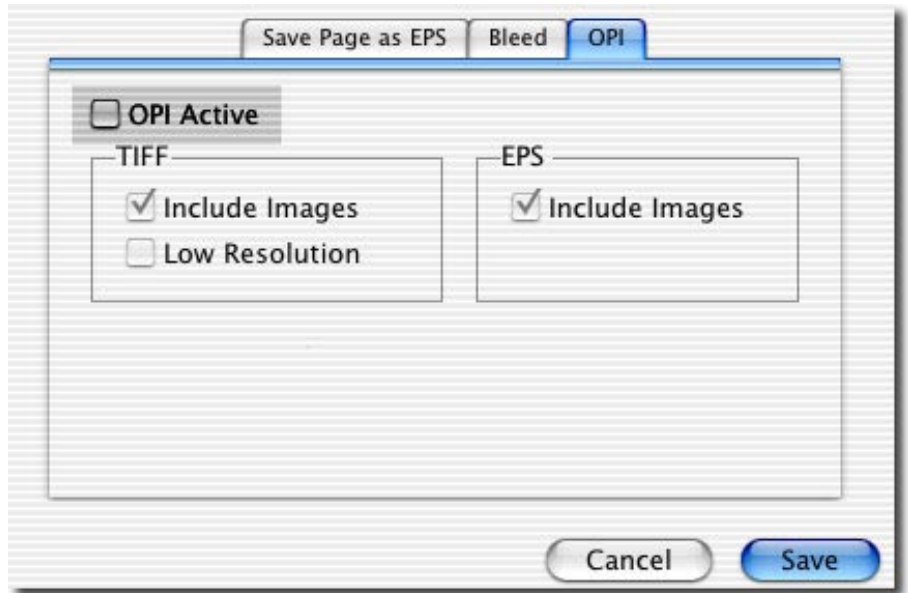

4. On the Save Page as EPS window, set format to Color, Space to CMYK, Preview to PICT and Data to Binary:

5. In the Bleed tab, set the bleed amount to 0

6. In the OPI tab, turn the OPI Active button off.

7. Your file is now ready to distill to PDF. See Adobe Acrobat instructions.
